

ERADICON PEST MANAGEMENT

ANT TREATMENT

PREPARATION GUIDE

Your home is scheduled to be treated for ants.

The treatment involves applying a water-based, odorless product along the baseboards of your home. Other key areas may be treated on the interior and exterior of home. **YOU WILL NOT HAVE TO LEAVE.**

The treatment is **SAFE**, in harmony with EPA label instructions, and poses no risk to your family or pets.

PRE-TREATMENT INSTRUCTIONS

- **Please do not spray ants** with store-bought sprays or foggers **before or after** your treatment.
- Please **move personal items away from the wall** so that baseboards may be treated.
- If ants are active around the sink, **please pull items away from the backsplash** for treatment.
- Please prepare for **access around the exterior of the home** for treatment of the foundation.

POST-TREATMENT INSTRUCTIONS

- **DO NOT ALLOW CHILDREN OR PETS TO CONTACT TREATED SURFACES UNTIL DRY.**
- **Allow ants to travel freely** for a few days to the carry the product back into their nest.
- **Do not wipe the counters or mop the floor** where the product has been applied for 1 week.

Be patient! It may take up to 2 weeks for all ant activity to disappear.
